# THE SIGNATURE® ELITE FULL-FRAME REPLACEMENT SYSTEM – FEATURING SWIFTLCK™ TECHNOLOGY

From day one, Signature Elite windows with TrimEssentials Decorative Window Accents will change the way you think about full-frame replacement projects. The simplicity and ease of this innovative snap-on trim system makes it easier, quicker, more consistent and more profitable.

For vinyl replacement window projects, the best solution is a full-frame replacement installation: tear out the old vinyl window, including the nail fin, and install a new integral nail fin window in a clean opening.

But, replacing integral nail fin windows typically involves removing or cutting back siding and dealing with extra trim work to create a clean finished look. This time-consuming and intricate process requires skilled labor, and when not installed correctly, can drive up costs and generate service calls.

With Signature Elite windows and our patent-pending SwiftLock™ Technology snap-on trim system, you can now give your customers a superior performing window and beautiful custom-crafted trim – with amazing installation ease.

Simply install Signature Elite windows with proper flashing and finish the job quickly with TrimEssentials Decorative Window Accents snap-on brickmould and casing trim.

**No Special Equipment, Training or Cutting Skills Are Needed.** Just snap on the pre-made, fully assembled decorative trim for a perfect fit every time!

- Quick and precise finish – trim is custom fabricated with each window
- Speed up the installation process
- More windows installed per day
