## COLOR PALETTE

**CASUAL ELEGANCE** An inviting mixture of yesterday and tomorrow, Woodgrain Series 2000 combines the traditional beauty of hand-cut wood siding with the high-performance properties of aluminum. Warm and luxurious colors embellished with an intricate woodgrain texture will lend casual style and sophistication to your home.

### OUTSTANDING PROTECTION

While you may be drawn to Woodgrain Series 2000 aluminum siding for its classic good looks, you'll also appreciate its durability and strength. Beginning with a strong aluminum core, each panel is coated with a specially formulated Poly polyester finish to create a resilient exterior. Woodgrain Series 2000's heavy-duty construction will beautifully withstand exposure to harsh weather elements such as heat, cold, rain and snow. Warranted against peeling, cracking or blistering, your siding will maintain its attractive appearance season after season.\*

### SIMPLE UPKEEP

You can forget about awkward ladders or time-consuming exterior maintenance. Woodgrain Series 2000 aluminum siding requires very little upkeep. Unlike fiber cement that may require periodic recaulking and repainting, or wood siding that typically needs repainting every five to seven years, Woodgrain Series 2000 demands not much more than a simple rinse with a garden hose – ideal for today's lifestyle.

### ENVIRONMENTALLY FRIENDLY

Did you know that all Gentek aluminum siding products are produced from material that is at least 90% recycled aluminum? At the end of its long useful life, aluminum siding is 100% recyclable and can be recycled back into similar products with no loss of quality. Using recycled aluminum instead of raw materials also reduces the generation of air pollution such as carbon dioxide (CO<sub>2</sub>), sulfur dioxide (SO<sub>2</sub>) and nitrous oxide by 95% and water pollution by 97%.<sup>1</sup> Eco-friendly Woodgrain Series 2000 aluminum siding further helps the environment because it never needs to be repainted, thereby reducing the amount of paint and other maintenance-related substances entering the waste stream.

### VALUE-ADDED FEATURES

Like many people, your home may be your single most important investment. Woodgrain Series 2000 aluminum siding not only will create an elegant, worry-free exterior, it will heighten your home's curb appeal as well. And in today's resale market, a beautiful, low-maintenance finish can greatly enhance the value of your home.

### SIDING WITH PERFECTION

No need to settle for siding and trim that "almost match." Our Color Clear Through® collection of customer-preferred colors ensures that all Gentek products – siding, soffit, fascia, trim and rainware – will beautifully match throughout our vinyl, aluminum and steel product lines.

### Built Weather-Tough!

Woodgrain Series 2000 aluminum siding is performance-engineered to shield your home from outdoor elements, such as harsh winds and water, and other destructive weather. Unlike wood, compressed particle board or fiber cement, Woodgrain Series 2000 won't absorb moisture.

### Added Dimension

The extra-deep 1/2" butt height of Woodgrain Series 2000 aluminum siding adds greater dimension and style with dramatic shadow lines.

### Superior Finished Look

While fiber cement and compressed particle boards typically require caulked joints, Woodgrain Series 2000's "seams" are crisp and clean.
