

STEELTEK™

STEEL SIDING

For Your Home - Superb Quality, Exceptional Strength

STEEL TEK™

STEEL SIDING

GALVALUME®
AZ-50

High-Performance Galvalume AZ-50 Steel

SteelTek is built tough from the inside out. The Galvalume AZ-50 steel core prevents corrosion with greater zinc in the coating process, outperforming other steel sidings.

House shown in Bright White.

HIGHER EXPECTATIONS...EXTRAORDINARY RESULTS

Industry-leading technology and innovation. Craftsmanship unrivaled in quality and performance. Outstanding products. Impeccable service. The confidence and trust of every customer, every day.

For more than 50 years, Gentek Building Products has manufactured siding and accessories in beautiful styles and exquisite colors. With durable finishes that are easy to maintain. Backed by warranties that deliver lasting protection and excellent value. Giving you the expertise and personal touch – that make us truly a part of your home.

With special pride, we champion our “Made in the U.S.A.” steel siding production, fully supported by our long-standing commitment to excellence in materials testing, design, manufacturing and installation. When you choose SteelTek siding for your home, you can be assured of an exceptional finish that will stand the test of time.

COLOR PALETTE

A LEGACY OF QUALITY

Leave it to SteelTek to create a luxurious finish for your home while protecting it with a durable armor of steel. This pioneer of steel siding features a handsomely crafted woodgrain texture and beautiful palette of colors for an exquisite home exterior.

SUPERIOR STEEL STRENGTH

If you are considering steel siding for your home, chances are you've already realized the benefits that only steel can deliver. It's unmatched when it comes to protecting your home from harsh weather and other hazards.

SteelTek's superior strength begins with heavy-duty Galvalume AZ-50 steel that is primed and heat-fused with a thick coating of PVC (polyvinyl chloride). This beautiful and resilient finish will stand up strong against blistering heat, pounding hail, heavy snow and other punishing weather.

EASY UPKEEP

When it comes to maintaining your SteelTek siding, you can relax. There's no need for time-consuming scraping and painting or struggling with ladders. Just a simple rinse with a garden hose will remove most airborne dust and dirt. In most cases, your siding will clean up quickly and easily.

INVESTING IN YOUR HOME

Like many people, your home may be your single most important investment. When you consider the time and money spent repainting year after year, you'll see why steel siding is smart choice. SteelTek's easy upkeep and attractive appearance can enhance the curb appeal of your home while enhancing its overall value. And in today's resale market, a beautiful, low-maintenance exterior can be an important amenity.

SIDING WITH PERFECTION

Perfection? It's never too much to ask. Our Color Clear Through® system makes it easy to find the perfect color match for your exterior design. This exclusive selection of customer-preferred colors ensures that all Gentek products – siding, soffit, fascia, trim and rainware – will beautifully match throughout our vinyl, aluminum and steel product lines.

DETAILS THAT MAKE THE DIFFERENCE

Accent the architecture of your home with coordinating soffit, fascia and trim. Masterfully crafted exterior accessories will give your home a distinctive touch of personality and visual appeal.

COMMANDING STEEL STRENGTH

SteelTek's rugged steel construction is virtually impervious to outdoor elements. And unlike wood, compressed particle board or fiber cement, it won't absorb moisture. It's also resistant to dents, warping, fire, termites, chalking, fading, and brittleness in cold weather.

HIGH DIMENSIONAL STABILITY

Rigid steel panels deliver high dimensional stability and resist buckling and the wavy appearance that can result from expansion and contraction caused by extreme weather changes. SteelTek steel siding also will subtly conceal flaws in the exterior's substructure, keeping wall lines exceptionally smooth and straight.

ADDED DIMENSION

SteelTek steel siding's generously proportioned 1/2" butt height adds greater dimension and style with dramatic shadow lines.

SMOOTH FINISHED LOOK

While fiber cement and compressed particle boards typically require caulked joints, SteelTek's "seams" are crisp and clean.

BETTER PRODUCTS FOR A BRIGHTER FUTURE

You may not realize it, but building green begins long before the materials are ready for installation on your home. It begins with a strong commitment to “source reduction” by the manufacturer. This means that all aspects of production are designed to help reduce the volume and environmental impact of waste, while also achieving optimum material use to create products with a longer service life. At Gentek, we strongly promote best practices for environmental stewardship and proudly offer a wide variety of eco-friendly steel, aluminum and vinyl products.

Built to shield your home from even the most punishing weather, Gentek steel siding also promotes energy conservation by creating a tight building envelope for more efficient heating and cooling performance year-round. In terms of strength and stability, steel offers many advantages for residential home building – and has long been North America’s most recycled material!⁴ The uncompromising endurance of this heavy-gauge siding promises exceptional beauty and lasting protection for your home.

Gentek Steel Siding...

- Helps take the pressure off renewable resources. A typical 2,000-sq.-ft. home requires approximately 40 to 50 trees (about an acre’s worth) to build with wood. With steel, only the equivalent of six scrapped automobiles is needed.⁵
- Is completely recyclable! Approximately 88% of all steel products are recycled into new steel products at the end of their useful life.⁶

A WORD ABOUT QUALITY

Gentek delivers the confidence and value only a true leader can provide. We proudly stand behind our products with the full faith of our more than 50 years of manufacturing expertise and some of the strongest warranties in the industry. Our voluntary participation in rigorous quality certifications and independent testing are further assurance you have made an excellent selection for your home.

A LIFETIME OF PROTECTION

SteelTek steel siding is backed by a lifetime limited, non-prorated, transferable warranty with 50 year hail and 15 year chalk and color change protection. Not only is it a premier siding product, it also carries one of the strongest warranties in the industry. For complete warranty information, including limitations, ask your dealer for a copy of the SteelTek steel siding warranty.
