WINDOWS

BEAUTIFUL, PRACTICAL AND STRONG

 GENTEK[®]

OUR WINDOWS. YOUR PEACE OF MIND.

Visually exciting and powerfully built, Gentek windows will dramatically heighten the style and comfort of your home. Equally important, they will deliver true peace of mind that you have chosen a high-performance window from a respected manufacturer. Pride in our products and “Custom-Crafted in the U.S.A.” ingenuity are at the heart of our commitment to quality. It’s what makes our windows among the best in the industry and our service second to none.

Gentek windows are custom-made to your exact specifications and backed by decades of window manufacturing expertise. Engineering, innovation, rigorous testing and stringent quality control are just a few ways that we turn cutting-edge technology into superior windows and satisfied customers. When you choose Gentek windows for your home, you can be assured of the highest levels of performance, beauty and value.

CONCORD® PLUS

VINYL REPLACEMENT WINDOWS

Quality-crafted with an elegant finish, Concord Plus windows feature a fusion-welded vinyl sash and mainframe for added strength and structural integrity. Multi-chambered extrusions with airtight insulating compartments, double-barrier fin seal weatherstripping, protective bulb seal and the Intercept® Warm-Edge Spacer System together provide a powerful thermal shield to help keep your home comfortable year-round with less energy use.¹

ENDURING STYLE

Concord Plus windows are designed with simple upkeep in mind. You can forget about scraping and painting. The solid vinyl construction won't rot, split, corrode or pit like painted wood windows and won't swell or warp from exposure to moisture. Your windows will maintain their attractive appearance year after year, inside and out.

ENERGY EFFICIENCY

Gentek windows and patio doors are performance-engineered to help conserve energy and reduce the consumption of fossil fuels used for heating and cooling homes. Using less energy to heat and cool your home not only saves money, it can reduce your home's carbon footprint as well. High-quality products with a long lifespan can also help lessen your impact on the environment.

INTEGRATED TECHNOLOGY AND DESIGN

- 1 Built with premium vinyl resin; solid vinyl color won't chip, peel, crack or warp.
- 2 Multi-chambered sash and mainframe provide insulating air spaces for increased thermal efficiency.
- 3 Insulated glass unit with sealed air space between the panes of glass helps reduce the transfer of heat and cold.
- 4 Intercept® Warm-Edge Spacer System saves energy by reducing the conduction of heat at the edge of the glass for superior thermal performance and longevity.
- 5 Interlocking composite-reinforced sash meeting rails offer increased insulation and comfort.
- 6 Bulb seal at meeting rails enhances energy efficiency.
- 7 Drop-in glazing provides added protection from outside elements.
- 8 Easy-to-operate fully extruded lift rails.
- 9 Protective bulb seal at the sill helps block out dust, dirt and air infiltration.
- 10 Sloped sill drains water quickly to the exterior to inhibit water and debris accumulation.
- 11 Hidden screen track creates a clean-line appearance.

ADDITIONAL FEATURES

- Fusion-welded sash and mainframe for strength and rigidity
- Dual vent stops offer limited and convenient opening of the window for airflow
- Constant force balance system for smooth operation of the sashes (double-hung window)
- Tilt-in top and bottom sashes for easy cleaning from inside the home (double-hung window)
- Double-barrier fin seal weatherstripping at the sash sides helps block air, water and dirt infiltration
- Beveled exterior profile creates an attractive appearance

CUSTOMIZE YOUR WINDOWS WITH BARRIERXP®

For even greater energy savings, choose a BarrierXP insulating glass package. BarrierXP glass packages combine multi-layer low-emissivity (Low-E) glass and argon gas² along with a high-performance Intercept spacer system to further increase thermal efficiency and help prevent energy loss year-round.

Winter Energy Savings: Low-E insulating glass reduces heat loss by reflecting warm air back into your home.

Summer Energy Savings: Low-E helps block unwanted solar heat penetration to help reduce air-conditioning use.

DOUBLE-HUNG

Our double-hung windows combine classic good looks with superior functionality. Both sashes tilt in to offer convenient cleaning from inside your home.

- Fusion-welded mainframe and sashes for increased strength
- Interlocking meeting rails provide added comfort and insulation
- Sloped sill directs water runoff to help prevent buildup
- Constant force balance system ensures smooth sash operation

SLIDING

The generous glass area of sliding windows offers an infusion of natural light and an unobstructed outdoor view. Sleek sashes glide horizontally and lift out³ for easy cleaning.

- Fusion-welded mainframe and sashes for increased strength
- Multi-wall extrusions enhance structural integrity, strength and thermal efficiency
- Interlocking meeting rails provide added comfort and insulation
- Nylon-encased dual brass rollers ensure smooth sash operation

Concord Plus windows can be tailored to meet the latest ENERGY STAR® requirements. Please consult your window professional for an energy-efficient BarrierXP glass package for your home and climate zone.

INVESTING IN YOUR HOME

Like many people, your home may be one of your most important investments. Adding beautiful, low-maintenance windows can improve the curb appeal of your home while boosting its value. According to *Remodeling* magazine's "2023 Cost vs. Value Report," the national average of the cost recouped for vinyl replacement windows is 68.5%.

WARRANTY PROTECTION

Concord Plus windows carry a lifetime limited warranty – further assurance of lasting performance and genuine value. For complete warranty information, including limitations, ask your dealer for a copy of the Concord Plus replacement window warranty.⁴
