# COIL COLOR SELECTOR

MATCHING EXTERIOR PORTFOLIO® COLORS

## Tech and Specs

- 24" aluminum trim coil
- .019" coil thickness
- Available in Poly (LoMar) and PVC finish coats
- No minimum order required

Choosing the perfect aluminum trim coil color for your exterior design is easy and convenient with our Gentek coil color selector. Each color chip is identified with a Gentek color number and the matching Exterior Portfolio color name.

All Gentek trim coil coatings have been formulated and tested to ensure a durable, low-maintenance finish that will enhance the beauty of homes for years. Choose from 24 colors with Poly (LoMar) or PVC (polyvinyl chloride) finish.

Beautiful and resilient, our Poly (LoMar) polyester coating provides a soft, low-luster satin finish with excellent resistance to surface marring and scuffing.

Our PVC finish is a premium semigloss coating that is several times thicker than ordinary coatings. The extra thickness delivers outstanding resistance to wear and abrasion and extends the life of the coating beyond ordinary painted finishes.
