GENTEK®

ALUMINUM RAINWARE

SYSTEMS

SUPERIOR DESIGN AND CONSTRUCTION

Expertly crafted for enduring style and performance, Gentek Rainware Systems provide essential water drainage and weather protection for your home. The heavy-duty aluminum construction features a premium polyester finish that will maintain its beautiful appearance despite exposure to harsh weather.

Season after season, the gutters, downspouts and other rainware components perform an important job: they capture the rainwater running off your roof to prevent it from infiltrating your home. A properly installed rainware system effectively channels this water to also avoid damaging other areas such as decking, landscaping, soil and concrete.

CUSTOMIZED FOR YOUR HOME

Every home has specific climate challenges that should be factored into the rainware structure. With a combination of gutters, elbows, downspouts and miters, your professional installer can create a complete rainware system customized for your home. Brackets, hangers and clips firmly connect all components and secure the system in place.

ON-SITE FABRICATION

Gutters fabricated at the job site from Gentek premium gutter coil provide superior form, fit and functionality. The high-performance coil is corrosion-resistant and features a finished side coated with a durable, baked-on polyester finish that resists dirt and stains from environmental elements.

Pre-formed downspouts, elbows, miters and other accessories also are manufactured in matching colors from this same premium coil, while the hangers and utility components are mill-finished metal. From end to end, the complete system is built weather-tough for lasting quality and value.

COLOR MATCHING MADE SIMPLE

No need to settle for siding and trim that “almost match.” Our Color Clear Through® collection of customer-preferred hues helps ensure a beautiful color match with other Gentek siding, trim and accessory products. A wide variety of complementing and accenting colors also is offered for expanded design options.

WARRANTY PROTECTION

Gentek Rainware Systems are backed by a 20 Year Limited Warranty – further assurance you have made an excellent selection for your home. For complete warranty information, including limitations, ask your dealer for a copy of the warranty.*
